

enjoy the moment

if you are looking for the most fashionable kids accessories
for the wardrobe, for a walk, to school
or for an adventurous trip,
it means we are here for you.

Childhood or adolescence is a magical time that should pass under the sign of endless carefree games with peers and unforgettable adventures. Outdoor playing and long walks are the best form of physical activity for children. When we add functional and practical bags, backpacks or bum bags with original prints or in the favorite color, to which children can pack the things they need, we get the perfect set. As parents, we should give our children as much opportunity as possible to explore what surrounds them, regardless of the season of the year, and let them decide what to take in their favorite bag when they leave the house.

The **entire "enjoy the moment" collection** was created in our own factory in Poland based on innovative printing techniques and from well-selected, high-quality fabrics. The colorful prints and comfortable shape are to encourage children to spend cative time outside even on cloudy days.
