

SHELL BAG

2021/2022

s h e l l b a g

Childhood or adolescence is a magical time that should be marked by endless carefree games with peers and unforgettable adventures, and outdoor play and long walks are the best form of physical activity for children. When we add functional and practical bags, backpacks or sachets with original prints or in their favorite color, in which children can pack the things they need, we get the perfect set. As parents, we should give our children as many opportunities as possible to discover what surrounds them regardless of the season and let them decide what to take with them in their favorite bag when they leave the house.

Our collections are made in our own factory in Poland, in one of the largest printing houses in Europe in TOPQ in Gdansk. They are created on the basis of innovative printing techniques and selected, high-quality fabrics. Colorful prints and a comfortable shape are to encourage children to spend time outdoors, even on cloudy days.

The Shellbag brand is a Polish manufacturer of accessories for children and people of all ages. These accessories are a functional complement to your wardrobe. Each product is our original idea, always in line with the prevailing trends. Our goal is to create something unique with an interesting design and excellent quality. We consult each of our products and graphics with our best advisers – children. Each of the products we offer is made in Poland.
